An investment in our Equity Shares involves a high degree of risk. You should carefully consider each of the following risk factors and all other information set forth in this Draft Letter of Offer, including the risks and uncertainties described below and ‘Financial Information’ beginning on page 61 respectively in this Draft Letter of Offer, before making an investment in our Equity Shares.

The risks and uncertainties described below are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business, financial condition, results of operations, and cash flows. If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, actually occur, our business, financial condition, and results of operations could suffer, the trading price and the value of your investment in, our Equity Shares could decline, and you may lose all or part of your investment. In making an investment decision with respect to this Issue, you must rely on your own examination of our Company and the terms of this Issue, including the merits and risks involved. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in this Issue.

This Draft Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from such forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Letter of Offer. Any potential investor in, and purchaser of, the Equity Shares should pay particular attention to the fact that our Company is an Indian company and is subject to a legal and regulatory environment which, in some respects, may be different from that which prevails in other countries.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to “we”, “us”, “our” refers to our Company.

RISKS RELATING TO THE ISSUE AND OBJECTS OF THE ISSUE & RISKS MATERIAL TO THE ISSUER AND ITS BUSINESS:

1. *Our business is highly dependent on the success and operational soundness of Micro, Small, and Medium Enterprises (MSMEs), which are inherently susceptible to various risks:*

The Net Proceeds of this Issue are primarily intended for lending to MSMEs. These enterprises face inherent business and operational risks, which can be broadly categorized as internal and external.

Internal risks include, but are not limited to, issues such as non-compliance, over-leverage, inexperienced promoters or staff, and potential fraud or malfeasance. Despite our due diligence and caution, we may not always be able to identify or mitigate all such risks.

External risks impacting MSMEs are diverse and include unforeseen events (e.g., 'black swan' events), intense competition, adverse legal or regulatory changes, and natural disasters. These factors can significantly impact the profitability and operational viability of MSMEs, directly affecting their repayment capabilities and, consequently, our profitability and asset quality (Domino Effect).

Ultimately, our business success and the quality of our lending portfolio are directly tied to the sustained profitability and effective risk management practices of the MSMEs we serve.

2. *We Do Not Own Our Registered Office Premises, and Any Inability to Renew the Lease or Continue Occupation May Disrupt Our Operations*

Our registered office, located at Office No. 308, 3rd Floor, Block-B, Navratna Corporate Park, Bodakdev, Bopal, Ahmedabad, Daskroi, Gujarat – 380058, is not owned by the Company but is occupied under a lease agreement dated July 2, 2025. The lease is for a short tenure of nine months, commencing from July 1, 2025 and expiring on March 31, 2026.

There is uncertainty regarding the renewal of the lease after its expiry. In the event we are unable to renew the agreement on favorable terms, or at all, or if we are required to vacate the premises due to breach of agreement or for any other reason beyond our control, we may face operational disruption. Finding a suitable alternative location on short notice could be challenging and may adversely impact our ability to conduct day-to-day operations, maintain continuity in administrative functions, and service clients effectively.

Such a scenario could lead to temporary dislocation, loss of productivity, and increased costs, which may have a material adverse effect on our business operations, financial condition, and overall corporate functioning.

3. *Our business will require substantial funds, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.*

Our liquidity and profitability are, in large part, dependent upon our timely access to, and costs associated with raising capital including both debt and equity. Our business depends and will continue to depend on our ability to access diversified low-cost funding sources. As a financial services company, we face certain additional regulatory restrictions on our ability to obtain financing from banks. Further, under Indian Law, foreign investors are subject to investment restrictions that may limit our ability to attract foreign investors or capital from overseas investors.

As we pursue our growth strategy and introduce new products, our long-term capital requirements will increase, resulting in greater reliance on debt capital markets. Access to funds at competitive rates will depend on factors such as regulatory changes, market liquidity, global economic developments, and investor sentiment towards NBFCs. If we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. Our ability to raise timely and cost-effective financing is critical to supporting business expansion, maintaining competitiveness, and responding to operational challenges. Any limitations in securing such funding could materially impact our financial condition, growth prospects, and overall performance.

4. *We have not registered the trademarks used by us for our business and our inability to obtain or maintain these registrations may adversely affect our competitive business position. Our inability to protect or use our intellectual property rights may adversely affect our business.*

As of the date of this document, our Company has not obtained trademark registration for its corporate name “**TRUSTEDGE CAPITAL LIMITED**” and logo “”, both of which are used in connection with our business activities. These elements form an integral part of our brand identity and market recognition. Company has applied for trademark registration in due course; however, the process can be time-consuming and subject to regulatory delays or objections.

There is a risk that a third party may apply for or obtain registration of identical or deceptively similar trademarks before we do. In such a scenario, we may be unable to secure exclusive rights to use our brand name or logo, which could lead to disputes, restrictions on usage, reputational harm, or rebranding costs. Furthermore, our failure to protect or enforce our intellectual property rights may weaken our competitive position and impact customer trust and market presence.

While we continue to take proactive measures to safeguard our brand through consistent use and recognition in the market, there is no assurance that we will ultimately obtain or retain legal rights over our trademarks. Any such inability to secure or defend our intellectual property may adversely affect our business, brand equity, and long-term growth prospects.

5. *We operate in a highly competitive industry and our inability to compete effectively may adversely affect our business.*

We operate in a highly competitive industry. Given the diversity of our businesses and the range of products and services we offer, we face competition from public sector banks, private sector banks (including foreign banks), financial institutions, small finance banks, and other NBFCs active in SME, retail, and individual lending. Many of these institutions are well-established and may have a significantly larger scale of operations, broader geographical reach, longstanding customer relationships, and diversified funding sources.

Owing to their size and established market presence, such competitors may be able to access funds at lower costs, which enables them to offer more competitive pricing and better terms to borrowers. This cost advantage may limit our ability to match their offerings and could impact our margins and market share. Moreover, the competitive landscape continues to evolve with changing regulatory policies, entry of new participants, and potential consolidation among financial service providers in India.

We cannot assure you that we will be able to respond effectively to these developments or maintain our competitive position in the market. Our inability to compete successfully with new and existing players may adversely affect our business, financial condition, and operating results.

6. *Volatility in interest rates and inability to pass on increased borrowing costs may adversely impact profitability and cash flows.*

A significant component of our revenue is derived from the interest on loans and other financing activities. Accordingly, our net interest margins are sensitive to changes in interest rates. Any increase in our borrowing costs without a corresponding increase in lending rates may adversely impact our profitability and cash flows. If we are unable to pass on higher funding costs to our customers due to competitive pressures, regulatory constraints, or market resistance it could reduce our net interest income and strain our operational cash flows.

Moreover, in a declining interest rate environment, if our cost of funds does not decrease in line with or as quickly as the yield on our interest-earning assets, our margins may shrink, adversely affecting our revenue from operations. Interest rates in India are influenced by various factors beyond our control, including inflationary pressures, monetary policies of the RBI, competitive dynamics, and domestic or global economic conditions.

Any sustained mismatch between our borrowing costs and lending yields could materially and adversely affect our financial condition, results of operations, and cash flow from operations.

7. *Inaccurate, misleading, or incomplete information from customers and counterparty for credit assessment may affect credit decisions and financial results.*

Our credit assessment process relies significantly on the information and representations provided by or on behalf of potential borrowers, including details of their financial position, past credit history, and other relevant disclosures. In certain cases, we may not have independent means to verify all such information and must rely on the accuracy, completeness, and transparency of what is furnished. If a borrower provides incomplete, inaccurate, or deliberately misleading information, or conceals material facts that could influence our lending decision, it may lead to the extension of credit to customers who are not creditworthy, thereby increasing our risk of default.

In assessing creditworthiness and evaluating encumbrances on collateral, we also depend on third-party sources such as registrars, sub-registrars, credit information companies, credit bureaus, and independent valuers. Any inaccuracies or gaps in the data received from these sources or reliance on misrepresentations by customers may compromise our evaluation of creditworthiness and the enforceability or realizable value of the collateral provided.

While we have implemented risk management systems and procedures to detect and deter fraud and misrepresentation, these measures may not be adequate in all cases. Any failure to identify or mitigate such risks may adversely impact the quality of our loan book, increase our credit losses, and materially affect our business, financial condition, and results of operations.

8. *Limitations in India's credit information infrastructure may hinder our due diligence processes and increase credit risk exposure.*

India's existing credit information infrastructure, while evolving, is not as robust or comprehensive as that of more developed economies. This presents significant challenges in conducting thorough due diligence on our customers, as well as on the nature and enforceability of the securities or collateral offered by them. The ability to perform an exhaustive search on the security interests is often constrained due to limitations in publicly available databases and inconsistencies in records. Further, there is no assurance regarding the accuracy, completeness, or timeliness of the search reports that we may rely upon.

Given these systemic limitations, our overall credit assessment framework may not always capture all risks effectively, especially when compared to global best practices. This increases the likelihood of asset quality deterioration, which in turn may lead to higher levels of non-performing assets (NPAs). As a result, we may be required to make increased provisions or write-offs, which could adversely affect our financial condition, operational performance, and profitability.

9. *High Levels of Customer Defaults or Delays in Repayment of Interest and Principal Could Adversely Affect Our Business, Financial Condition and Results of Operations.*

Our success and continued growth depend significantly on the timely receipt of interest payments and the repayment of the principal amounts by our customers at maturity. Any delays or defaults in these payments can negatively affect our cash flows, lending capacity, and overall business operations. Our lending business inherently exposes us to credit risk, including the risk of delayed or non-payment of interest and/or principal by borrowers due to factors such as financial distress, liquidity constraints, business failure, or operational disruptions.

We also extend unsecured loans, which by nature do not carry any collateral. In the event of a default by the borrower on such loans, we may have limited or no recourse to recover the outstanding amounts, thereby increasing our credit loss exposure. Additionally, in the case of secured loans, the value of the underlying security may decline due to factors beyond our control such as market volatility, legal disputes, or deterioration in asset quality resulting in insufficient collateral coverage. This may hinder our ability to recover the full loan amount in case of enforcement, leading to further losses.

An increase in instances of irregular interest payments or defaults on principal repayments may adversely impact our financial performance, asset quality, and credit portfolio. Although we have implemented credit assessment and risk management systems, there is no assurance that these measures will continue to be effective or sufficient to mitigate such risks. Failure to monitor borrower behavior and take timely corrective action may intensify credit losses and materially affect our business, financial condition, and results of operations.

10. Our business operations are subject to regulatory approvals and compliance requirements, and any delay or failure in obtaining or renewing such approvals may adversely affect our business.

As a Non-Banking Financial Company (NBFC), our business is regulated and supervised by the Reserve Bank of India (RBI) and is subject to various regulatory, licensing, and compliance requirements. We are required to obtain and maintain several approvals, registrations, and licenses including our NBFC registration from the RBI, Certificate of Incorporation from the Ministry of Corporate Affairs, and other operational registrations such as those under applicable laws governing shops and establishments, professional tax, and GST.

In the ordinary course of business, we may need to apply for renewals of existing approvals or obtain new ones due to regulatory changes, business expansion, or other operational needs. If we fail to obtain or renew such approvals in a timely manner, it could restrict our ability to conduct business activities legally and effectively. Moreover, any delay by the relevant authorities including the RBI or other government departments in granting the required approvals or registrations could hinder our business operations and expansion plans.

While we currently hold all material licenses and approvals necessary to operate our business, there can be no assurance that we will be able to maintain or renew them in the future without delays or additional conditions. Failure to obtain, maintain, or renew such approvals on time may result in operational disruptions and could have a material adverse effect on our business, financial condition, results of operations, and cash flows.

11. Our business is highly dependent on the continued service and expertise of our key managerial and senior management personnel, and any inability to retain them may adversely affect our operations and growth.

Our operations and overall business performance are highly dependent on the experience, leadership, and industry knowledge of our Key Managerial Personnel (KMPs) and Senior Management Personnel (SMPs). These individuals are instrumental in formulating and executing business strategies, maintaining operational continuity, ensuring compliance with applicable laws, and navigating evolving market conditions.

The loss of any KMP or SMP, whether due to resignation, retirement, or unforeseen circumstances, could disrupt our business processes and adversely impact our ability to maintain current levels of operations. Given their central role in decision-making and organizational leadership, any failure to retain them could also affect investor confidence and long-term growth.

Further, the financial services industry is highly competitive for skilled professionals. If we are unable to offer competitive compensation, clear career advancement, or a motivating work environment, we may face difficulties in attracting and retaining critical talent. A significant increase in attrition or failure to replace key individuals with equally qualified personnel could impair our operational efficiency, strategic direction, and overall business performance.

12. We may not have sufficient insurance coverage to cover all possible economic losses. If we incur an uninsured loss or a loss that significantly exceeds the limits of our insurance policies, the resulting costs may have a material adverse effect on our business, cash flows, financial condition and results of operations.

There are many events, that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. To the extent that we suffer loss or damage, or successful assertion of one or more large claims against us for events for which we are not insured, or for which we did not obtain or maintain insurance, or which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our business, results of operations, financial condition and cash flows could be adversely affected.

13. Our indebtedness and the conditions imposed by our financing agreements may limit operational flexibility and restrict our ability to conduct business as desired.

Our current and future indebtedness, along with the terms and conditions imposed under our financing and borrowing agreements, may significantly restrict our operational and financial flexibility. These agreements often contain covenants that impose conditions and limitations on our ability to incur additional debt, create liens, make certain investments, declare dividends, or undertake mergers, acquisitions, or other corporate restructuring activities.

Such restrictive covenants may limit our ability to respond effectively to changing business needs, pursue new strategic opportunities, or make necessary capital expenditures. Additionally, failure to comply with these covenants or repayment obligations could lead to defaults, acceleration of repayment, or enforcement of security by lenders, which may materially and adversely impact our business, financial condition, cash flows, and results of operations.

Moreover, a high level of indebtedness may expose us to interest rate fluctuations, increase our financial risk profile, and reduce our ability to raise additional capital on favorable terms, thereby affecting our long-term growth prospects.

14. Our business is based on the trust and confidence of our customers; any damage to that trust and confidence may materially and adversely affect our business, future financial performance and results of operations.

Our business model is fundamentally built on the trust, confidence, and loyalty of our customers. Any actual or perceived damage to this trust whether due to service lapses, operational disruptions, negative publicity, or circumstances beyond our control could have a material adverse effect on our ability to attract and retain customers and conduct business as usual.

Brand recognition and reputation play a critical role in our positioning within the financial services sector. If our brand suffers deterioration due to customer dissatisfaction, public criticism, unfavorable media coverage, regulatory actions, or legal proceedings, we may face challenges in regaining lost trust. The loss of goodwill may take considerable time and effort to repair and could impair customer relationships, hinder new business acquisition, and negatively affect our competitive standing.

A failure to maintain the confidence of our existing or potential customers may materially affect our future financial performance, operational stability, and long-term business prospects.

15. *Our Company has in the past entered certain related party transactions and may continue to do so in future. Any related party transactions that are not on an arm's length basis or that may lead to conflicts of interest may adversely affect our business, results of operation, cash flows and financial condition.*

Our Company has entered into certain related party transactions in the ordinary course of business, including but not limited to functional support services, reimbursement of expenses, insurance expenses, revenue from rentals and other services, directors' sitting fees, and purchase or sale of fixed assets and property. These transactions have been undertaken on an arm's length basis and are subject to internal controls and oversight to ensure compliance and transparency.

While related party transactions can provide operational convenience and foster closer collaboration, they may also give rise to potential conflicts of interest. There can be no assurance that, had similar transactions been entered into with unrelated third parties, the terms would not have been more favorable to the Company. Moreover, we cannot assure you that we will not enter into related party transactions in the future.

Although we aim to ensure that all such transactions are conducted in accordance with applicable laws, governance norms, and disclosure requirements, there remains a risk that such dealings whether individually or collectively may not always align with the interests of our minority shareholders and may adversely affect our business, financial condition, results of operations, or cash flows.

16. *Any failure or significant weakness of our internal controls system could cause operational errors or incidents of fraud, which would adversely affect our profitability, reputation, business, results of operations, cash flows and financial condition.*

We are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to guarantee effective internal controls in all circumstances. Given the complexity of our operations, it is possible that errors may repeat or compound before they are discovered and rectified. Our operational risk control and monitoring mechanism as well as enterprise resource management systems and internal control procedures that are designed to monitor our operations and overall compliance may not identify every instance of non-compliance or every suspicious transaction. Moreover, while we use and operate various technology systems for various products, we are dependent on certain manual processes to reconcile data between these technology systems, which exposes us to risks of inaccurate reporting and internal control failures. Failures or material errors in our internal controls systems may lead to deal errors, pricing errors, inaccurate financial reporting, fraud and failure of critical systems and infrastructure.

While our controls are designed to identify deficiencies, our internal controls may also fail to identify frauds by borrowers, employees or third parties service providers, and our insurance policies may be inadequate to cover such losses. Moreover, for certain types of loans, we depend on third parties for the valuation of collateral and verification of titles, and we may fail to identify fraud or collusion between third party service providers, customers or employee, which could have a negative impact on the quality of loans and may lead to higher defaults. Adverse publicity arising from disclosure of fraud may also have an adverse impact in our customers' confidence in our security measures. There can also be no assurance that we would be able to prevent frauds in the future or that our existing internal mechanisms to detect or prevent fraud will be sufficient. Any fraud discovered in the future may have an adverse effect on our reputation, business, results of operations, cash flows and financial condition.

17. *We May Experience Operational and Strategic Challenges in Expanding Our Product Portfolio, Which May Adversely Affect Our Growth and Financial Performance.*

Expanding our product portfolio involves significant planning, execution capabilities, and resource deployment. Launching new products or services requires extensive groundwork, including upgradation of existing systems and technological infrastructure, hiring of experienced personnel with industry-specific knowledge, and comprehensive training of both existing and new employees. These activities may be time-consuming, resource-intensive, and may also place considerable demands on the time and focus of our senior management.

Further, the success of any new product launch is subject to various uncertainties such as market acceptance, regulatory approvals, and alignment with our existing capabilities. Despite incurring substantial financial, operational, and human resource investments upfront, there is no assurance that the new product lines will perform as expected or contribute meaningfully to our growth. Failure to successfully expand our product offerings may result in underutilization use of resources, delay in achieving strategic goals, and adverse impacts on our profitability, cash flows, and competitive positioning

18. *We may experience difficulties in expanding our business into new regions and markets in India.*

As on date, predominantly our borrower base is concentrated in the state of Gujarat. While Gujarat has contributed significantly to our business performance, such concentration increases our exposure to regional economic, political, and market risks. As part of our growth strategy, we intend to diversify our customer base by expanding into new geographies across India.

However, expansion into new regions may present significant challenges, including established competition from other NBFCs and financial institutions that have already captured a substantial share of the market in those areas. These competitors are likely to have stronger customer relationships, deeper market insights, and greater familiarity with local business practices, regulatory regimes, and customer preferences.

Additionally, expanding into unfamiliar markets may require considerable investment in infrastructure, human resources, branding, and compliance, with no assurance of immediate returns. Difficulties in understanding local cultures, attracting customers, establishing effective distribution channels, and complying with region-specific regulatory frameworks may hinder our growth in such regions. Failure to effectively expand into new geographies may adversely impact our business prospects, financial condition, and results of operations.

19. *We may face asset-liability mismatches, which could affect our liquidity and consequently may adversely affect our operations and profitability.*

As a Non-Banking Financial Company (NBFC), maintaining an appropriate balance between the maturities of our assets and liabilities is critical to our financial health. An asset-liability mismatch (“ALM”) arises when the maturities of our liabilities (such as borrowings) do not align with the maturities or cash flows of our assets (such as loans disbursed). We may at times rely on short-term borrowings to fund long-term loans, which can result in a negative ALM position.

Such mismatches may expose us to liquidity risk, especially in scenarios of market volatility, tightening credit conditions, or unexpected borrower prepayments. Moreover, any significant delays in raising additional funding or refinancing existing obligations could strain our liquidity position, making it difficult to meet our financial commitments in a timely manner.

There can be no assurance that we will always be able to manage our ALM effectively or maintain a positive liquidity profile. Any material mismatches in our asset-liability structure could adversely impact our operations, restrict our ability to grow our loan book, affect investor and lender confidence, and ultimately harm our business, profitability, and financial condition.

20. *Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Rights Entitlement Letter, and the Application Form (the “Issue Materials”) to such Shareholders who have provided an address in India for the service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions.

However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject us to fines or penalties.

21. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) may lapse in case they fail to furnish the details of their demat account to the Registrar.*

In accordance with the SEBI ICDR Master Circular, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a Demat Escrow Account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares). For further information, see “*Terms of the Issue*” on page 71.

Further, in case bank accounts of the aforesaid Eligible Equity Shareholders cannot be identified due to any reason or bounce back from such bank accounts, our Company may use payment mechanisms such as cheques, demand drafts etc. to remit the proceeds of sale of the Equity Shares to such Eligible Equity Shareholders. If such bank account from which Application Money was received is closed or non-operational, the sale proceeds will be transferred to IEPF in accordance with practice on Equity Shares and as per applicable law.

22. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and the Eligible Equity Shareholders will not receive any consideration for them.

The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see “*Terms of the Issue*” on page 71 of this Draft Letter of Offer.

23. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such a conversion may reduce the net dividend for foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

24. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the Regulation 87 of SEBI (ICDR) Regulations, 2018 the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Right Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political, or economic conditions or other events like force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant’s decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. The occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence.

25. Investors will be subject to market risks until the Rights Issue Shares credited to their demat accounts are listed and permitted to trade.

Investors can start trading the Rights Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Rights Equity Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Rights Equity Shares allocated to an Investor will be credited to the Investor’s demat account or that trading in the Equity Shares will commence in a timely manner.

26. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates, favourable industrial and macroeconomic factors and have not been independently appraised. Any fluctuations in the same are beyond our control which may impact the utilisation of net proceeds.*

Our proposed utilization of the Net Proceeds, as detailed in the 'Objects of the Issue' chapter, is based on our current business plan, management estimates, and prevailing market conditions. These estimates and conditions are subject to change, and the funding requirements have not been independently appraised. The actual utilization of funds will remain at the discretion of our Board of Directors.

The dynamic nature of the financial industry, coupled with our heavy reliance on Reserve Bank of India's interest rates and broader Indian macroeconomic conditions, may necessitate revisions to our business plan and fund utilization strategy. Such changes could impact the effective deployment of the Net Proceeds as per the stated objects of the Issue.

Furthermore, our internal management estimates regarding funding requirements may not align with fair market value or third-party appraisals, potentially requiring us to reschedule, reallocate, or modify our utilization plan, which could adversely affect our operations and financial performance.

27. *Our measures to prevent money laundering and other illicit actions and ensure KYC compliance may not be entirely effective, and non-compliance could expose us to regulatory scrutiny, penalties, and reputational risks.*

As a Non-Banking Financial Company (NBFC), we are required to comply with the provisions of the Prevention of Money Laundering Act, 2002 ("PMLA"), Know Your Customer ("KYC") norms issued by the Reserve Bank of India ("RBI"), and other applicable central and state-specific laws and regulations governing financial transactions and money lending activities. These laws impose various obligations, including customer identification, transaction monitoring, and reporting of suspicious transactions.

Despite implementing internal Anti-money Laundering policies and compliance procedures across our operations, there is no assurance that our measures will be entirely effective in preventing third parties from attempting to use our platform for illicit activities. Any lapse, inadvertent or otherwise, in monitoring or reporting may expose us to the risk of being used as a vehicle for money laundering.

Moreover, several Indian states have enacted their own laws regulating money lending activities, which include restrictions on lending terms and interest rates. As we expand operations across multiple jurisdictions, ensuring compliance with varying state-specific requirements could be operationally challenging. Non-compliance, whether related to PMLA, KYC regulations, or state money lending laws, may attract civil or criminal penalties, fines, regulatory investigations, disciplinary actions, and reputational damage.

Furthermore, the government and regulatory bodies continue to tighten and enforce KYC and Anti-money Laundering norms, including real-time verification and reporting standards. If we fail to keep pace with these evolving compliance requirements or face systemic lapses in enforcement, our business, financial condition, and reputation could be materially and adversely affected.

28. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. The Indian stock exchanges have, in the past, experienced substantial fluctuations in the prices of listed securities. Prices of listed securities are subject to volatility linked among other factors to the uncertainty in the global markets and the rising inflationary and interest rate pressures

domestically. The governing bodies of the Indian stock exchanges have, from time to time, imposed restrictions on trading in certain securities, limitations on price movements, and margin requirements. Future fluctuations or trading restrictions could have a material adverse effect on the price of our Equity Shares.

29. The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.

The Issue Price of Rights Equity Share may not be indicative of the market price for our Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are: a) quarterly variations in the rate of growth of our financial indicators such as earnings per share; b) changes in revenue or earnings estimates or publication of research reports by analysts; c) speculation in the press or investment community; d) general market conditions; and, e) domestic and international economic, legal, and regulatory factors unrelated to our performance.

We cannot assure you that the market price of Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholders will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

30. As the Equity Shares of our Company are listed on the Stock Exchange, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations 2015 and comply with other SEBI Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.

The Equity Shares of our Company are listed on BSE Limited, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI (LODR) Regulations, 2015 to the extent applicable, and have to adhere to and comply with other applicable Regulations framed by SEBI. Our Company endeavors to comply with all such obligations and reporting requirements, any non-compliance which might have been committed by us may result into Stock Exchange and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and the rules and regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

31. Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will be subject to long term capital gains tax in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchange, the quantum of gains and any available treaty exemption Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of securities transaction tax ("STT"), on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short

term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a tax treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

32. *In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.*

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the section titled '**Objects of the Issue**' beginning on page 49. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

33. *System failures, technological inadequacies, or security breaches in our IT infrastructure may adversely affect our business, operations, and reputation.*

Our business operations are heavily reliant on the continuous and efficient functioning of our information technology (IT) infrastructure, including financial, accounting, data processing, and customer interface systems. Any failure or inadequacy in these systems, whether due to natural disasters, power outages, hardware or software malfunctions, cyber-attacks, data breaches, or disruptions in communication services, could significantly impair our ability to operate effectively.

Our ability to remain competitive and scale operations depends on timely and cost-effective upgrades and maintenance of our IT systems. However, we may not always be able to upgrade or adapt our systems as required due to financial, technical, or operational constraints. Moreover, given the increasing sophistication of cyber threats, our systems may be vulnerable to unauthorized access, viruses, ransomware, or other forms of cyber intrusion, despite our efforts to implement robust security measures.

A breach or failure of our IT systems could lead to the loss, theft, or corruption of sensitive data (including customer and financial information), disruption in operations, financial losses, potential regulatory penalties, and reputational harm. Furthermore, if our internal control systems or disaster recovery mechanisms prove to be ineffective in responding to such events, the impact on our business could be worsened.

Any such occurrence may adversely affect our business continuity, customer trust, operational performance, and overall financial condition.

34. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could

adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

35. *Our inability to assess, monitor and manage risks inherent in our business may have an adverse effect on our business and results of operations.*

The effectiveness of our risk monitoring and management is limited by the quality, timeliness and availability of data required for the assessment of the risks such as, information regarding market, customers and proposed policy changes. Such data may not be accurate or complete in all the cases thereby affecting our ability to access, monitor and manage risks. Our risk management techniques may not be fully effective in mitigating all the types of risks that we may face. Largely, our risk management is based on the study of historical market behaviour and as a result these studies may not predict the future risks exposures. Our risk management policies therefore may not adequately address unidentified or unanticipated risks in all cases. Any inadequacy in the timely assessment and mitigation of risks may have an adverse effect on our business and results of operations.

36. *Any future issuance of Equity Shares, convertible securities, or other equity-linked instruments by our Company may result in a dilution of public shareholding, and any sale of Equity Shares by our Promoter or members of the Promoter Group may adversely impact the trading price of the Equity Shares."*

The sale of Equity Shares by our Promoter or Promoter Group may also affect the market price of these securities. Furthermore, any market speculation about such issuances or sales could influence the trading price of our Equity Shares. While we cannot guarantee that we will not issue additional Equity Shares, or that our Promoter or Promoter Group will not sell, pledge, or encumber their shares, we will disclose any such actions as required.

37. *Employee-related disputes or attrition may adversely impact our business operations and financial performance.*

Our business relies heavily on our employees, particularly those engaged in sourcing, disbursement, collections, and client interactions. We place significant importance on training our staff in customer service and communication to maintain service quality and operational efficiency. However, any inability to adequately train, retain, or motivate our workforce may lead to higher attrition, reduced service quality, increased costs, and diversion of management attention from core business matters.

As of June 30, 2025, we employed 9 full-time staff members. While we focus on employee welfare and maintaining a positive work environment, we cannot rule out the possibility of disputes arising in the future. Any such disputes, or disruptions arising from resignations, dissatisfaction, or industrial action, may interrupt our operations, delay business processes, and affect our customer relationships. In particular, prolonged or widespread disruptions could have a material adverse effect on our business, financial condition, and results of operations.

38. *Certain of our existing shareholders or future shareholders together may be able to exercise substantial voting control over us, which may limit your ability to influence corporate matters.*

As of August 31, 2025, our Promoters beneficially owned an aggregate of 42,13,900 Equity Shares of face value ₹10 each, representing 71.99% of our outstanding Equity Share capital. They will continue to

hold a significant portion of our post-Issue equity. Additionally, certain existing or future shareholders may, individually or collectively, acquire a substantial shareholding in the Company.

As a result, these shareholders, whether acting independently or in concert, may be able to exercise considerable influence on matters requiring shareholder approval, including appointment or removal of directors, changes to lending and investment policies, approval of mergers, acquisitions, asset sales, or other significant corporate actions. This may limit your ability to influence such decisions. Moreover, such shareholders are not obligated to present or share any potential business opportunities with the Company, which could impact the Company's long-term strategic interests.

39. Our ability to raise foreign currency funds in the future may be constrained by Indian laws and regulatory requirements.

As on date, we have not borrowed funds from foreign sources for the purpose of expanding our business. However, in the future, if we seek to raise funds from foreign lenders or investors, our ability to do so will be subject to the regulatory framework governing foreign currency borrowings by Indian non-banking financial companies (NBFCs). These include exchange control regulations, sectoral caps, end-use restrictions, and approval requirements under applicable laws including rules prescribed by the Reserve Bank of India and the Ministry of Finance.

There can be no assurance that we will receive the necessary regulatory approvals in a timely manner or at all, or that such approvals will not be subject to conditions that could adversely affect our ability to raise funds efficiently. Any delay or inability to raise foreign currency funding, as and when required, could adversely impact our growth plans, financial flexibility, and business operations.

40. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition and prospects.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

41. There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.

There is no assurance that our Equity Shares will be listed on the Stock Exchanges within the time frame expected, or at all, which may adversely affect the liquidity and trading price of our Equity Shares. Under Indian law, approval for listing and commencement of trading is granted by the Stock Exchanges only after the Equity Shares have been allotted and the Company has completed all necessary filings and formalities. Any delay may arise on account of, among other reasons, delays in submission of requisite documents, queries or clarifications raised by the Stock Exchanges or regulatory authorities, delays in effecting corporate actions with depositories, or other technical or procedural reasons beyond our control. Any such delay or failure to obtain listing and trading approvals would restrict the ability of our shareholders to sell or otherwise deal in their Equity Shares. Further, even after listing, there can be no assurance that the Equity Shares will trade at prices consistent with historical trading prices or that shareholders will be able to sell their Equity Shares at any particular price.

42. Failure to comply with evolving RBI regulations, inspections and licensing requirements could materially affect our operations.

Our business operations are highly regulated and dependent on approvals, registrations and licenses granted by the Reserve Bank of India ("RBI") and other regulatory authorities. These approvals are required to be maintained and renewed periodically, subject to compliance with prescribed conditions. Any delay or failure in securing or renewing such approvals could materially and adversely affect our operations and financial performance.

Further, under the provisions of the RBI Act, 1934, our Company is subject to periodic review and inspection by the RBI. Such inspections may be undertaken to verify the accuracy of information submitted by us or to obtain information that the Company may not have provided when called upon to do so. While we endeavour to comply with applicable requirements and respond to observations raised, there can be no assurance that the RBI will not identify deficiencies, impose penalties or raise additional concerns in the future.

Given that the regulatory framework for NBFCs in India is subject to continuous change, any revision of eligibility criteria, prudential norms or supervisory requirements could increase our compliance obligations. Inability to meet such requirements or resolve regulatory observations in a timely manner may have a material adverse impact on our business, results of operations and financial condition.

43. *Public health emergencies such as the COVID-19 pandemic could adversely affect our borrowers' repayment capacity and our business operations.*

The outbreak of COVID-19 and the consequent lockdowns and restrictions had a significant adverse impact on the overall economy and financial markets, including the lending and borrowing ecosystem in India. At a macro level, reduced business activity and financial stress on individuals and enterprises weakened the overall credit environment. At a company level, the pandemic resulted in delays in repayment by borrowers, deterioration in their repayment capacity, and an increase in non-performing assets ("NPAs") recorded in our books, which in turn adversely affected our cash flows and liquidity position.

While normal business activity has gradually resumed, there can be no assurance that similar public health emergencies, pandemics or widespread outbreaks will not occur in the future. Any such event could again restrict economic activity, disrupt borrower repayment behaviour, and adversely affect our business operations, financial condition, cash flows and results of operations.

44. *Any regulatory actions and penalties for any past or future non-compliance may adversely affect our business or reputation, or both.*

We operate in a highly regulated environment and are subject to various laws, rules and regulations, including the Companies Act, SEBI Act and regulations thereunder, sector-specific requirements (such as [RBI/IRDAI directions, as applicable]), as well as tax, labour, employment, environment, health and safety and local municipal laws. Compliance with these requirements demands significant management time and resources. Any failure, delay or inadvertent lapse in complying with applicable requirements, or interpretational differences with regulators, could result in show-cause notices, monetary penalties, restrictions on our operations, initiation of proceedings against us or our management, suspension or cancellation of approvals, or reputational damage.

In the ordinary course of business, regulators may issue observations during inspections or audits requiring corrective measures. Inability to implement such measures in a timely manner could invite further scrutiny or penalties. Our operations also depend on obtaining and maintaining various registrations, licences and approvals, and there can be no assurance that such approvals will be granted or renewed on time or on favourable terms. Non-compliance in this regard may adversely affect our ability to conduct business.

45. *Exposure to cyber security threats, data theft and system vulnerabilities*

As an NBFC, our business is highly dependent on secure processing, storage and transmission of sensitive customer and financial information, including KYC data, credit assessments, loan agreements, repayment records and transaction details. Our IT systems, digital lending platforms and third-party service providers are vulnerable to cyber threats such as unauthorised access, malware, ransomware, phishing, denial-of-service attacks and insider misuse. Any successful cyber-attack or system breach could result in theft, alteration or loss of customer data, disruption of our lending operations, delayed disbursements or collections, financial losses, regulatory scrutiny and reputational damage.

Our existing measures may not be sufficient to prevent all incidents, given the increasing sophistication of cyber threats. We also rely on third-party technology and cloud vendors, and their vulnerabilities may expose us to additional risks.

46. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “*automatic route*”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “*government route*”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the consolidated FDI Policy Circular of 2020 (***‘FDI Circular 2020’***), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing

approval from the government is valid to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.

Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Draft Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
